Venue :
East Tallinn Central Hospital, Congress
Centre
Ravi Street 18 (H-building)
Tallinn, Estonia

Tuesday 06 August 2019

**OPEN TO CIVILIAN and MILITARY
MEDICAL PERSONNEL**

Workshop "HOSPEX"

The HOSPEX Exercise, drawing on many years' experience of field hospital deployments and major incidents, is essentially a pre-deployment classroom-based tabletop training exercise representing deployed NATO Role 1, Role 2 Basic and Enhanced, and Role 3 medical facilities during a contingency operation abroad.

In separate rooms one tabletop 'playboard' simulates the point of injury on the battlefield and a forward operating base, while two or three other tabletops have 'playboards' accurately representing the different Medical Treatment Facilities

Each playboard has cards representing each member of the medical staff on location, and then there are a number of casualty cards in packs, each representing particular scenarios, from single disease or trauma cases up to a variety of major incidents. There are other visual aids and documents. Participants learn and practise the principles of CSCATTT (command and control, safety, communication, assessment, triage, treatment and transfer in an enjoyable and interactive learning environment

SCHEDULE

0830 transportation + registration
0900 workshop "Hospex"
1230 lunch
1330 workshop "Hospex" (cont'd)
1530 wrap-up

For NON-CIOMR participants:
attendance fee 25 EUR
(to be paid in cash at the start of the exercise)

Registration via:
