

ALCON:

To our International Partners:

I cannot believe how time flies! The C-FGOLD staff is already planning and preparing for C-FGOLD 2022.

Last year, C-FGOLD 2021 was a learning and gratifying experience and this year our goal is to have more students benefit from this amazing opportunity to network share with us.

C-FGOLD 2022 will take place at Trinity University in San Antonio Texas, USA from June 5-11, 2022. All students will be housed in private dormitory rooms on the Trinity campus along with meal available at the campus dining facility.

Last year, COVID disrupted travel plans for most of our international partners, but we were able to meet in San Antonio for C-FGOLD 2021 and hosted one international student from Poland, MAJ Anita Podlasin. This year we would like to retake the initiative and invite those international students that due to COVID travel restrictions were not able to join us.

C-FGOLD is a mentorship course and its mission is to educate Company Grade and Field Grade medical officers on the basic leadership principles of key staff and command opportunities. Further, we intend to expand the course to include a focus on interoperability, joint operations, and deeper partnerships with our NATO peers. The course requires 100% organic unit funding for duty and travel pay. Our international students are encouraged to present a block of instruction from their respective commands during the course. This is always an incredible capstone event!.

We will be your point of contact and our job is to facilitate and assist in any way possible with registration, travel, and life support throughout your student's stay in San Antonio, Texas. Our #1 priority is to deliver an incredible and rewarding C-FGOLD experience.

Cordially,

MAJ Yolanda ArceMontijo
International Student Liaison C-FOLD 2022
