

07 April 2024

As per email distribution list.

To All CIOMR Heads of Delegations, Members, Dear Colleagues, Guests, and Guest Speakers.

**CIOR, CIOMR AND CISOR SUMMER CONGRESS 2024 (SC 24)**

Sirs, Ma'ams and Colleagues.

It is with very great pleasure that we invite you to participate and attend the Joint CIOR, CIOMR and CISOR Summer Congress 2024.

The main event will occur during the period 29 July to 02 August 2024. Please note that subsidiary events (and their programmes such as JMROW, Milcomp and CIMIC) may have a slightly alternated start dates and timeline. If you need any assistance from the CIOMR Board to have national support to attend, please contact the Secretary General.

The CIOMR has structured a varied program with sessions focused on military medicine and scientific aspects, operational medical themes, global health engagement, parallel and partly joint sessions with the Junior Medical Reserve Officer Workshop, and of course our Executive Council. In essence, the program will particularly focus on NATO and COMEDS priorities of Care Far Forward / AI/ Remote Medicine. It will highlight new developments in military medicine and put these into an operational setting. The Congress will have a global health overview, and give our Junior Medical Reserve Officers a strong introduction to strategic planning at a NATO-level. It should be something for everyone to enjoy.

The SC 24 website with full information is here: <https://cior24.erok.ee/>

However, for ease and greater emphasis, please refer to the accompanying Warning Order where you will find what we believe is the essential information (accommodation, registration, schedule) for SC 24.

We look forward to seeing and hosting you in Tallinn!

*Johan S. Munch*

Lieutenant Colonel  
President CIOMR

*Jason English*

Lieutenant Colonel  
Secretary General CIOMR
